

# FALCON VISION

A Revolutionary Parking Guidance System

## A CAMERA BASED PARKING GUIDANCE SYSTEM WITH THE FOLLOWING FEATURES:

- Lighting Control System
- A parking garage system that is integrated into a light fixture with a stand-alone system available too
- Wireless mesh connection (reduces installation costs)
- Private and secure Wi-Fi network
- Security features (including stored video for forensic use)
- PARCS agnostic (open protocol)
- Rich functionality through IoT and Cloud native technologies
- Concierge lighting

*This product was featured in the NPA 2018 Sustainability Project of the Year!*

*"This product is brilliant! We were looking for an affordable parking guidance system with lighting features to improve the flow of traffic in our garages, while delivering security. The Falcon Vision exceeded our expectations and we love it."*
